SUMMARY

I am an aspiring UI/UX Designer with the passion of providing user solutions and crafting user satisfaction. I've been assigned on the front-end development of our projects and activities throughout my academic years.

EXPERIENCE

Mobile Developer Intern

AltPayNet Corp. | May – August 2022

- Created prototype designs and functions for their existing project
- Worked on mobile development innovation tasks such as push notifications and QR code scanning integration
- Manually tested their existing mobile application

Android Mobile Developer

Capstone Thesis | 2021–2022

- Developed an android-based application as part of our requirement in our Capstone subject, using Java as the programming language.
